

A Training Workshop - Enhancing the Higher Education - KTH an Example

Sunday – 21/08/2022

Tafila Technical University

As one of the MS@CPS activities, a training workshop was held at TTU to transfer the gained experience and knowledge from the training at KTH, Sweden. The dean of Information Technology and Communications Faculty introduced the importance and the added value of MS@CPS project to the students and academic staff at TTU. Dr. Ashraf Alkresha led the training with collaboration with Dr. Saba Alkaseasbeh and Mr. Mustafa Dmour. Dr. Alkresha presented the best practices and expertise at KTH in the field of enhancing the higher education in Sweden. Successful examples were provided, which reflect the high level of education in KTH in order to employ them in TTU, especially in the Information Technology and Communications Faculty. The training content focuses on investing these practices in the both of teaching and research activities in the master program of CPS at TTU. A number of faculty members from TTU participated in this Workshop. The participants highlighted the opportunities and directions of applying these practices.
